### RODS

Title: Rods  
 Title: Rods

Medium Stainless Steel

Dimensions: 700 mm X 160 mm X 15 mm x 2 artworks

Â

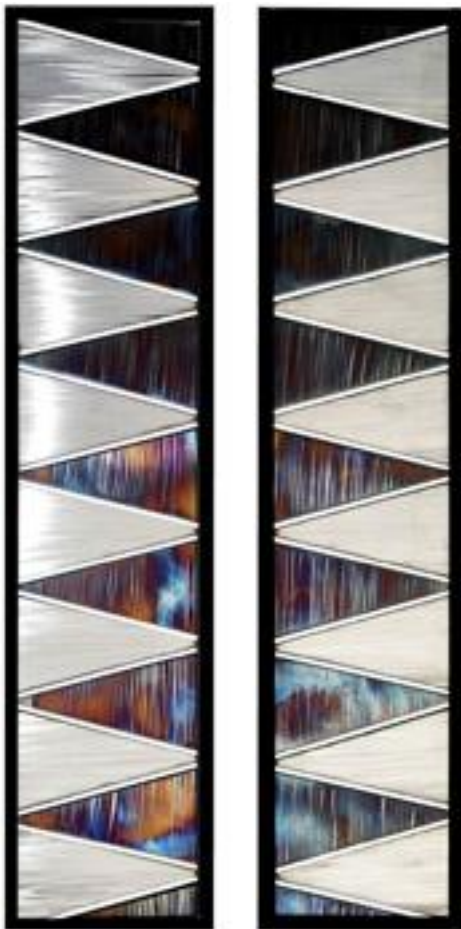

Rods is an original artwork that has been hand made in Devon (UK) in my own studio and is made from hand cut and etched, abstract stainless steel pieces that are welded together in a mild steel painted frame. A hand cut and colloured back plate is covered with a hand cut and etched plain stainless steel front, to create this eye catching fantastic looking contemporary abstract piece.

Â

Rods is my interpretation of the small unidentified flashes of light and matter that are caught on film flying through our skies and in our seas, no one knows if this phenomena is of ET origin or terrestrial life. they are around 2 - 4 m in length travel at really high speeds and defy identification by scientists to date. Google 'rods' and see what you think!
