Description:

^

Angel Oasis is an original artwork that has been hand made in Devon (UK) in my own studio and comprises of a hand etched and coloured ring with stainless steel rods that support silver rings in its centre and stainless steel rods that support heavily coloured outer disks around the outside of the ring. This is an artistic representation of the birth of angels from within the coloured ring, represented by the silver rings as they pass through the boundary of the ring they become glorious balls of coloured light that then turn into angels.
